Doing business in Pakistan

**A dedicated, experienced, quick and cost-efficient
law firm in Pakistan.**

Abraham & Sarwana has been meeting challenges and satisfying the most demanding of expectations for the past 45 years, with demonstrably advantageous results for our distinguished portfolio of international clients and associates. It is no wonder that we have managed to carve out a niche for ourselves in the international legal services market and are amongst the leading law firms in Pakistan.

Achieve the best possible solution

At Abraham & Sarwana, we are dedicated to achieving the best possible solution through original and creative thinking and close scrutiny of the various implications and problems involved in your matter.

Our primary objectives are to identify ourselves with your interests and to provide the finest legal expertise in

keeping with your needs and international best practices.

Engage the finest in legal expertise

Members of our firm have broad academic background, vast legal experience and on-the-ground knowledge of local custom and practice. Our resources both within and outside the firm consist of retired Judges of the Superior Courts, former Government Secretaries and senior lawyers advising and assisting in both contentious and non-contentious matters.

We are recognized for our experience in a wide range of sectors including, inter alia, energy and natural resources; steel and manufacturing; financial institutions and banks; defence and security; technology, media and telecom;

airlines; food and beverages; and dispute resolution.

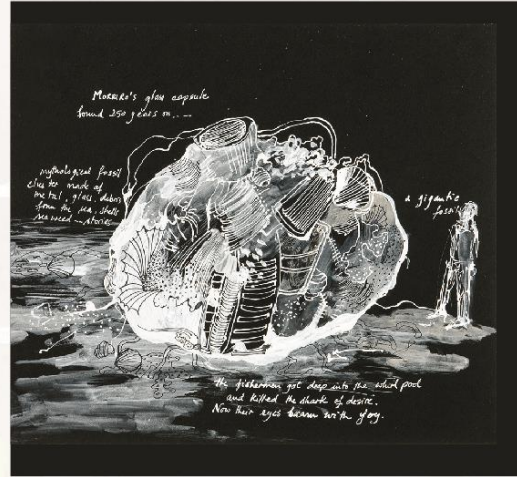

Enjoy fast and effective results

For us, no commitment is too arduous. The fact that we are not the largest only spurs us to greater effort to produce the best results in the shortest time possible with real savings passed on to clients. Working as a team with associates in Lahore, Islamabad/Rawalpindi, we provide seamless solutions to all your legal needs anywhere in Pakistan.

Our fee is competitive, charged on an hourly basis, always keeping in view the fact that it should be reasonable in relation to the complexity of the matter, the value of opinion in terms of saving and the risk involved in the transaction.

We are flexible to structure services based on fixed costs basis within defined parameters offering value for money.
